Fiscal Year FY 2002-2003 Key Project Accomplishments:

- In Calendar Year 2003, PDSD finds itself without a Business Plan because of a financial crisis that unfolded at the close of FY 01-02. The complications arising from the fiscal crisis are of a magnitude that a reorganization and reinventing of the Department is necessitated that reaches far beyond standard Business Plan goals and strategies. As a result, every aspect of the Department is being subjected to a full review from the ground up with a focus on the core services required by the community. In Budget 071, duties such as maintenance of the General Plan remain a state-mandated central function. Board of Supervisor assigned duties such as Code Enforcement and Community Revitalization continue in place, but the exact degree of service, whether increased or decreased from the past, will depend on the supporting funding determined by the Board.
- To meet the challenges presented by reorganization and reinvention of PDSD, numerous steps have already taken place:

- An Interim Director, Larry Leaman, volunteered to assist in guiding the Department until a permanent Director is selected
- Recruitment for a new Director was initiated in April, 2003
- A second Assistant Director, Walt Krause, was assigned to manage all of the fiscal and administrative services for PDS
- Layoffs were implemented to reduce staff size to fit the budget and projected workloads. Sixteen (16) positions were vacated as a result. Most staff members laid off were reassigned to other County Departments.
- Early retirements were offered and accepted by 4 staff members to help ameliorate the impact of layoffs
- Temporary transfers of employees from the CEO's and Auditor-Controller's offices were executed to bring in experienced budget specialists to review and amend fiscal policies and practices
- Retired County employees were brought back as Extra Help to assist with budgetary and accounting issues.
- A new Time & Materials based fee ordinance to recover costs was proposed and approved by the Board of Supervisors on March 4, 2003 and implemented on April 3, 2003.
- The APPS System was modified to accommodate the new Time & Materials based fee system
- PDS employees were trained to implement and execute the Time & Materials system
- A Fee Appeals Review Board and Hearing Officer process has been developed and sent to County Counsel for review
- Maximus was hired to perform a new comprehensive fee study
- Numerous new financial tools were implemented including regular meetings with key County Agencies (CEO, Auditor-Controller, County Counsel and Internal Audit)

Organizational Summary

DIRECTOR'S OFFICE - PDSD's Director, Assistant Directors, Community & Government Affairs Officer (CGAO) and 3 Secretaries make up the Director's Office Division. Each Program Manager reports to the Assistant Director of Operations, while all fiscal employees, IT manager, HR and CGAO report to the Assistant Director of Administration. This relationship strengthens the role of top management and improves coordination of departmental goals and objectives.

CURRENT PLANNING SERVICES - The Community and Advanced Planning Services Division created in the FY 01-02 cycle has been consolidated with Current Planning Services to create the Current and Advanced Planning Services Division (CAPS) in order to increase efficiency and to focus on revenue-generating, cost-offset core services to the most appropriate extent. Through CAPS, PDSD provides quality information and planning services at the Development Processing Center (DPC); processes administrative and discretionary permits and zone changes for privately initiated development projects; coordinates public hearings for the Zoning Administrator and Planning Commission; enforces County's Land-use regulations; and supports regional planning efforts.

Additionally, the Division now has responsibility for implementing the Five-Year Action Plan; maintaining the General Plan; coordinating necessary transportation and air analysis for private and public projects within the unincorporated county areas; monitoring all Development Agreements to ensure compliance with obligations; processing Annual Monitoring Reports for larger planned communities; maintaining and updating environmental and urban information themes, developing graphics for department reports; conducting special studies and analyses; and providing support for Watershed Planning Projects and Water Supply issues requiring coordination with other County agencies, Cities, State and Federal agencies. Other services provided by CAPS include some activities dependent upon specific policy decisions by the Board of Supervisors to continue or expand general fund support, such as Code Enforcement and Community Revitalization.

PLANNING COMMISSION - PDSD provides clerical support to the Planning Commission.

ENVIRONMENTAL/PROJECT PLANNING - This Division is charged with the critical duty of implementing and ensuring project compliance with the California Environmental Quality Act (CEQA); preparing community, specific and area plans; preparing and reviewing Environmental Impact Reports (EIRs), negative declarations, initial studies, categorical exemptions and other CEQA-related documentation for private and public projects within the unincorporated areas; providing technical site planning and engineering support for environmental issues and special project analyses; acting as liaison to the California State Coastal Commission on project and planning requirements within unincorporated Orange County Coastal zones; and monitoring implementation of biological mitigation measures required for development projects in satisfaction of CEQA or conditions of project approval.

CODE ENFORCEMENT - Facilitates the enforcement of Titles 2, 3, 4, 6 & 7 of the Orange County Codified Ordinances (OCCO) and a resolution establishing a schedule of fines for Grading Code violations. Also issues Civil Citations that impose fines upon persons who violate the OCCO.

FISCAL & PROGRAM SERVICES - Under direct management by the Assistant Director of Administration, FPS provides quality services and support functions to all PDSD Divisions and clients, including budget and financial services, payroll, building maintenance, records management, banking functions and purchasing. All Divisions of FPS support both Fund 071 and Fund 113 activities.

Information technology - As a key player in the overall operations of PDSD, IT developed, implemented and maintains the Automated Permit and Processing System, an in-house designed system to allow a broad and still-growing range of on-line capabilities including scheduling and tracking of inspections, plan checks, deposits and fees. Available to the public for state-of-the-art access and convenience to users, APPS also offers a wide variety of activity, use and trend report generation.

HUMAN RESOURCES - This unit provides technical direction and support for all PDSF functions in the area of human resources, including recruitment, hiring, classification, employee relations, position control and implementation of corporate policies and procedures.

Ten Year Staffing Trend:

Ten Year Staffing Trend Highlights:

- PDSF was established on November 19, 1996 in accordance with Board Resolution No. 96-825. The staffing change from FY 1998/99 to FY 99/00 was due to the addition of Code Enforcement (7), Human Resources and Fiscal and Program Services Division (15) positions. Per Board directive on June 5, 2000, PDSF's FY 00/01 budget was augmented by \$200,000 and (2) positions to address code enforcement needs in the County.

- As a result of the financial crisis in 02/03 many of the above positions were vacated. PDSF Fund 071, which had included 95 budgeted positions, currently has vacancies in 32 of these positions. Twenty-two (22) of these vacancies are scheduled to be eliminated.

Budget Summary

Plan for Support of the County's Strategic Priorities:

Consistent with the PDSF Strategic Plan to assist the County with incorporations; continue EIR preparation, support for regional planning efforts and coordinate with Public Facilities & Resources Department. Additional activities require review of core functions to ascertain consistency with County Strategic Plan, and further require Board of Supervisors direction and General Fund support. These functions include but are not limited to Code Enforcement, community revitalization and continued expansion of the APPS project.

Changes Included in the Recommended Base Budget:

Deletion of twenty-two (22) positions with \$1,338,702 in corresponding appropriation reduction in salary and employee benefits primarily as a result of PDSF's January 2003 layoff and early retirement impact.

Highlights of Key Trends:

- Time and Materials Deposit and Fee system adopted to ensure that costs are recovered and services are efficiently delivered
- Implementation of "800" number and on-line form for convenient public access to file Code Enforcement complaints
- Continue to participate in the Talega Valley Joint Powers Authority Planning Commission
- Initiated South County Outreach and Review Effort (SCORE) program to allow public input into the proposed Rancho Mission Viejo project, the largest planned community ever undertaken in Orange County and largest remaining tract of privately owned land
- APPS expanded to provide Time and Materials tracking and estimating to assist both in-house functions and public accessibility
- Complete reorganization and revitalization initiated including statewide search for Director of Planning & Development; right-sizing department to meet projected future needs;
- Initiated efforts to project workload/resources needs over the next five years
